PROFESSIONAL EXPERIENCE

Full-Stack Developer, Exeltiq (Exeltive), Remote | September 2025 - June 2026

Built a production multi-tenant SaaS CRM for gyms, clinics, and sports clubs in Cyprus using Next.js, TypeScript, FastAPI, PostgreSQL/Supabase, Clerk, Stripe, and Twilio. Localized in Greek and English. Live product with paid Stripe plans.

- Designed multi-tenant architecture and Clerk JWT authentication for business owners and members.
- Implemented Stripe billing for owner subscriptions, SMS credits, booking packages, and shop checkout.
- Built appointment booking so members buy packages and redeem them for fitness, physio, and grooming services.
- Built an SMS credit wallet (Stripe to credits to Twilio) plus automated SMS and email campaigns.
- Implemented a referral program with discounted first-month subscriptions and non-refundable platform credits.

Backend Developer (Contract), Corva.ai | March 2025 - July 2025

Joined after a company hackathon and was hired as a contract backend developer through project completion on an oil and gas real-time data platform.

- Developed backend services for high-volume operational data used in live visual dashboards.
- Implemented WebSockets and async status flows so the frontend reflected backend job stages reliably.

Senior Full-Stack Engineer (Contract), Emerton, Remote | January 2023 - February 2025

Delivered production web applications for about 7 business and startup clients.

- Built React, Next.js, and TypeScript frontends and FastAPI/Node.js APIs.
- Implemented authentication, payments, and third-party API integrations.
- Owned scoping, delivery, and production fixes independently.

Backend Developer (Contract), ACLIT, Remote | 2021 - 2022

- Developed REST APIs with Node.js, Express, and Python for web and mobile clients.
- Implemented JWT/OAuth authentication and optimized PostgreSQL, MySQL, and MongoDB queries.
- Documented APIs with Swagger and Postman.

Frontend Engineer, GMO Internet Group, Inc., Japan | 2020 - 2021

- Developed React and TypeScript interfaces and reusable UI components.
- Supported production frontend maintenance, debugging, and performance work.

Junior MERN Stack Developer, TechWave Solutions | 2018 - 2020

- Built full-stack features with React, Node.js, Express, and MongoDB.
- Deployed applications using AWS EC2, PM2, and Nginx.
